Integrated Business Planning is the industry's best practice model.

## ~~Oliver Wight EAME LLP~~ — What is Integrated Business Planning

There are several benefits to using a planning and control process. The planning function establishes income and expense goals and helps to identify any deviations from these goals. For example, planned expenditures are clearly outlined in the budget and provide guidelines for making expenditure decisions throughout the month.

## ~~Business Planning and Control: Integrating Accounting ...~~

Planning and control are concerned with the future activities of the business. Planning is always for future and control is also forward looking. No one can control the past, it is the future which can be controlled. Planning and controlling are concerned with the achievement of business goals. Their combined efforts are to reach maximum output with minimum of cost. Both systematic planning and organized controls are essential to achieve the organizational goals.
