Error Analysis, Interlanguage and Second Language ...

Errors are an integral part of language learning. The learner of English as a second language is unaware of the existence of the particular system or rule in English language. The learner ' s errors have long been interested for second and foreign language researchers. The basic task of error analysis is to describe how learning occurs by examining the learner ' s output and this includes his/her correct and incorrect utterances.

Error Analysis | Taylor & Francis Group

Secondly, contrastive analysis assumed that error derives exclusively from first language interference. Error analysis studies, however, have indicated that certain errors recur among language learners of various L1 backgrounds and seem to be more related to the intrinsic difficulty of the subsystem involved than cross-lingual influence.

Nativeness in a Second Language: Interlanguage learning a second language means losing the first. Transferability and linguistic substrates. A self-paced reading experiment with Brazilian learners. An interlanguage can fossilize, or cease developing, in any of its developmental stages.

LARRY SELINKER INTERLANGUAGE 1972 PDF

To illustrate the difference between error analysis and interlanguage analysis: an error analysis might tell you that a learner makes a lot of errors in marking gender in French, while an interlanguage analysis may show that that learner is using a system where masculine gender is used for all nouns and noun modifiers. This gender marking system results in some errors (e.g. when referring to females) but also some seemingly correct forms (when referring to

first and second languages to predict errors. Error analysis showed that contrastive analysis was unable to predict a great majority of errors, although its more valuable aspects have been incorporated into the study of language transfer.

Error analysis (linguistics) - Wikipedia

An interlanguage is an idiolect that has been developed by a learner of a second language which preserves some features of their first language, and can also overgeneralize some L2 writing and speaking rules. These two characteristics of an interlanguage result in the system's unique linguistic organization. An interlanguage is idiosyncratically based on the learners' experiences with the L2. It can "fossilize", or cease developing, in any of its developmental stages. The interlanguage rules are
