There are two different style truss rods found on Fender guitars and basses. Most have a standard truss rod. The standard truss rod can counteract a neck that is too concave (has too much relief), by compensating for excessive string tension. Some Fender guitars and basses have a unique Bi-Flex truss rod system.

Adjusting the pickups on your Fender Precision bass You can use a ruler to set each string about the same distance from the string — I generally fret that string at the last fret before measuring string-to-pickup distance. Once that visual/ruler setting is done, however, the usual advice applies: Use your ears.
