The Bengal Delta therefore mostly deals with the questions of policy as these were operationally

frustrated, negotiated and complicated by the ecological regime of the region. As Jon Wilson's *Domination of Strangers* (1) shows, the impossibility of policy at the ontological and practical level of the colonial administration was at work since its establishment in Bengal.

The Ganges Delta is a river delta in the Bengal region of the Indian subcontinent, consisting of Bangladesh and the Indian state of West Bengal. It is the world's largest river delta and it empties into the Bay of Bengal with the combined waters of several river systems, mainly those of the Brahmaputra river and the Ganges river. It is also one of the most fertile regions in the world, thus earning the nickname the Green Delta. The delta stretches from the Hooghly River east as far as the Meghna

'Empire and Ecology in the Bengal Delta is path-breaking and makes a compelling case for drawing urban studies in South Asia into the deepening folds of environmental history. This is an original effort that brims with theoretical insights and helps us recover ways for 'remembering' contemporary Kolkata's many entanglements with the Bengal delta's soaking ecology.'
